No. 1. JULY 1987

ORR E. REYNOLDS AWARD LECTURE

Introduction
F. G. Knox 1

Alexander M. Kellas and the physiological challenge of Mt. Everest
J. B. West 3

Metabolic response to maximal exercise of 800 and 2,000 m in the thoroughbred horse
R. C. Harris, D. J. Marlin, and D. H. Snow 12

Airway caliber and the work of breathing in humans
S. J. Jennings, J. B. Warren, and N. B. Pride 20

Effects of carbon dioxide on mental performance
J. A. Sayers, R. E. A. Smith, R. L. Holland, and W. R. Keatinge 25

Substrate utilization in leg muscle of men after heat acclimation
J. P. Kirwan, D. L. Costill, H. Kuipers, M. J. Burrell, W. J. Fink, J. E. Kovaleski, and R. A. Fielding 31

Low-frequency respiratory mechanical impedance in the rat
Z. Hantos, B. Daróczy, B. Suki, and S. Nagy 36

Partial forced expiratory flow-volume curves in young children during ketamine anesthesia
D. L. Shulman, E. Bar-Yishay, C. S. Beardsmore, B. Beilin, and S. Godfrey 44

Effects of theophylline and enprofylline on diaphragmatic contractility
D. Murciano, M. Aubier, N. Viires, H. Mal, and R. Pariente 51

Locus of hypoxic vasoconstriction in isolated ferret lungs
R. G. Brower, J. Gottlieb, R. A. Wise, S. Permutt, and J. T. Sylvester 58

Almitrine bismesylate and the central and peripheral ventilatory response to CO_2
C. N. Olievier, A. Berkenbosch, J. Degoede, and E. W. Kruyt 66

Fiber type specific glycogen utilization in rat diaphragm during treadmill exercise
H. J. Green, M. E. Ball-Burnett, M. A. Morrissey, M. J. Spalding, R. L. Hughson, and I. G. Fraser 75

Effect of urethan anesthesia on cigarette smoke-induced airway injury in guinea pigs
A. R. Burns, J. Van Oostdam, D. C. Walker, and J. C. Hogg 84

Papillary mechanics and cardiac morphology of infarcted rat hearts after training
D. L. Geenen, T. P. White, and R. M. Lampman 92

Perceived exertion and gas exchange after calcium and β-blockade in atrial fibrillation
J. Myers, J. E. Atwood, M. Sullivan, S. Forbes, R. Friis, W. Pewen, and V. Froelicher 97

Diminished baroreflex control of forearm vascular resistance in physically fit humans
G. W. Mack, X. Shi, H. Nose, A. Tripathi, and E. R. Nadel 105

O_2 radicals mediate reperfusion lung injury in ischemic O_2-ventilated canine pulmonary lobe
I. Koyama, T. J. K. Toung, M. C. Rogers, G. H. Gurtner, and R. J. Traystman 111

Resistance-training experience and the pressor response during resistance exercise
S. J. Fleck and L. S. Dean 116

Relation of mouth flow to body surface flow during forced oscillation at the chest
R. J. Gilroy, R. Peslin, C. Duvivier, F. Blum, and J. P. Butler 121

Time course of soleus muscle myosin expression during hindlimb suspension and recovery
D. B. Thomason, R. E. Herrick, D. Surdyka, and K. M. Baldwin 130

Activity influences on soleus muscle myosin during rodent hindlimb suspension
D. B. Thomason, R. E. Herrick, and K. M. Baldwin 138

CONTENTS OF VOLUME 63

Bradykinin actively modulates pulmonary vascular pressure-cardiac index relationships
D. P. Nyhan, P. W. Clougherty, H. M. Goll, and P. A. Murray 145

Normal alveolar epithelial lining fluid contains high levels of glutathione
A. M. Cantin, S. L. North, R. C. Hubbard, and R. G. Crystal 152

Cardiac, respiratory, and renal responses to stimulation of the external cuneate nucleus
C. Dean and D. R. Kostreva 158

ATP utilization and force during intermittent and continuous muscle contractions
D. Chasiotis, M. Bergström, and E. Hultman 167

Effects of endogenous pyrogen and prostaglandin E_2 on hypothalamic neurons in guinea pig brain slices
T. Ono, A. Morimoto, T. Watanabe, and N. Murakami 175

Changes in cardiac output during sustained maximal ventilation in humans
J. D. Anholm, R. L. Johnson, and M. Ramanathan 181

Plasma renin system during exercise in normal men
J. Staessen, R. Fagard, P. Hespel, P. Lijnen, L. Vanhees, and A. Amery 188

Ventilatory muscle recruitment in exercise with O_2 in obstructed patients with mild hypoxemia
G. J. Criner and B. R. Celli 195

Cardiac output by rebreathing in patients with cardiopulmonary diseases
M. C. Kallay, R. W. Hyde, R. J. Smith, R. L. Rothbard, and B. F. Schreiner 201

Hypoxia inhibits abdominal expiratory nerve activity
R. F. Fregosi, S. L. Knuth, D. K. Ward, and D. Bartlett, Jr. 211

Respiratory changes in thoracic muscle length during bronchoconstriction
E. van Lunteren, M. A. Haxhiu, E. C. Deal, Jr., J. S. Arnold, and N. S. Cherniack 221

Interactive effects of CO_2 and upper airway negative pressure on breathing pattern
E. van Lunteren 229

Breathing pattern during maximal exercise and during submaximal exercise with hypercapnia
C. G. Gallagher, E. Brown, and M. Younes 238

cAMP levels from endogenous and exogenous arachidonic acid in isolated dog lung
M. R. Littner, G. M. Kazmi, and F. D. Lott 245

Eccentric exercise-induced muscle damage impairs muscle glycogen repletion
K. P. O'Reilly, M. J. Warhol, R. A. Fielding, W. R. Frontera, C. N. Meredith, and W. J. Evans 252

Muscle respiratory capacity and $\dot{V}O_{2\,max}$ in identically trained young and old rats
G. D. Cartee and R. P. Farrar 257

Canine bronchoconstriction, gas trapping, and hypoxia with methacholine
P. H. Breen, L. J. Becker, P. Ruygrok, I. Mayers, G. R. Long, A. Leff, and L. D. H. Wood 262

Blood pressure and hemodynamic responses after exercise in older hypertensives
J. M. Hagberg, S. J. Montain, and W. H. Martin III 270

Effect of digitalis on the diaphragm in anesthetized dogs
Y. Kikuchi, W. Hida, C. Shindoh, T. Chonan, H. Miki, M. Sakurai, H. Inoue, and T. Takishima 277

Progressive elevations in muscle blood flow during prolonged exercise in swine
R. B. Armstrong, M. D. Delp, E. F. Goljan, and M. H. Laughlin 285

Rapid increases in respiratory epithelial permeability occur after intratracheal instillation of PMA
B. R. Pitt, J. S. Cole, P. Davies, and C. N. Gillis 292

Effect of tracheal bias flow on gas exchange during high-frequency chest percussion
N. Gavriely and Y. Shabtai 302

Rib cage versus abdominal displacement in rabbits during forced oscillations to 30 Hz
B. R. Boynton, J. J. Fredberg, B. G. Buckley, and I. D. Frantz III 309

Carnitine supplementation and depletion: tissue carnitines and enzymes in fatty acid oxidation
C. E. Negrao, L. L. Ji, J. E. Schauer, F. J. Nagle, and H. A. Lardy 315

Combined effects of hypertension and chronic running program on rat heart
T. Schaible, A. Malhotra, G. Ciambrone, P. Buttrick, and J. Scheuer 322

Testosterone fails to prevent skeletal muscle atrophy from glucocorticoids
J. A. Capaccio, T. T. Kurowski, S. M. Czerwinski, R. T. Chatterton, Jr., and R. C. Hickson 328

Endothelial injury and pulmonary congestion characterize neurogenic pulmonary edema in rabbits
F. L. Minnear, C. Kite, L. A. Hill, and H. van der Zee 335

Influence of exercise training on resting blood pressures of Dahl rats
C. M. Tipton, J. M. Overton, E. B. Pepin, J. G. Edwards, J. Wegner, and E. M. Youmans 342

Liposome-entrapped antioxidant enzymes prevent lethal O_2 toxicity in the newborn rat
A. K. Tanswell and B. A. Freeman 347

Hyperoxia increases H_2O_2 production by brain in vivo
T. Yusa, J. S. Beckman, J. D. Crapo, and B. A. Freeman 353

Liposome-mediated augmentation of catalase in alveolar type II cells protects against H_2O_2 injury
B. J. Buckley, A. K. Tanswell, and B. A. Freeman 359

Influence of upper airway sensory receptors on respiratory muscle activation in humans
S. Redline and K. P. Strohl 368

Effect of position and lung volume on upper airway geometry
J. M. Fouke and K. P. Strohl 375

Regional O_2 uptake during hypoxia and recovery in hypermetabolic dogs
C. E. King and S. M. Cain 381

Systemic and intestinal limits of O_2 extraction in the dog
D. P. Nelson, C. E. King, S. L. Dodd, P. T. Schumacker, and S. M. Cain 387

Internal carotid and vertebral arterial flow velocity in men at high altitude
S. Y. Huang, L. G. Moore, R. E. McCullough, R. G. McCullough, A. J. Micco, C. Fulco, A. Cymerman, M. Manco-Johnson, J. V. Weil, and J. T. Reeves 395

Altitude acclimatization: influence on periodic breathing and chemoresponsiveness during sleep
D. P. White, K. Gleeson, C. K. Pickett, A. M. Rannels, A. Cymerman. and J. V. Weil 401

High-frequency ventilation of ducks and geese
R. H. Hastings and F. L. Powell 413

SPECIAL COMMUNICATIONS

Blood collection and processing for measurement of catecholamines in exercising rats
W. W. Winder and H. T. Yang 418

Effects of exponential compression curves with nitrogen injection in humans
J. C. Rostain, B. Gardette, and R. Naquet 421

Intracellular ion content of skeletal muscle measured by instrumental neutron activation analysis
M. I. Lindinger and G. J. F. Heigenhauser 426

Immunohistochemical identification of lung cells responsive to β-stimulation with a rise in cAMP
T. B. Casale, D. Wood, S. Wescott, and M. Kaliner 434

RAPID COMMUNICATIONS

Acetylcarnitine formation during intense muscular contraction in humans
R. C. Harris, C. V. L. Foster, and E. Hultman 440

LETTERS TO THE EDITOR

Bradykinin and skeletal muscle sugar uptake
W. H. Hartl, K.-W. Jauch, M. Wicklmayr, and G. J. Dietze; J. O. Holloszy and S. H. Constable 443

ABSTRACTS FROM CURRENT LITERATURE 445

ANNOUNCEMENTS 454

No. 2. AUGUST 1987

EDITORIAL

New frontiers in the *Journal of Applied Physiology*
A. P. Fishman 455

Protein synthesis in hyperoxic endothelial cells: evidence for translational defect
L. Jornot, M. E. Mirault, and A. F. Junod 457

Regulatory alterations of daily energy expenditure induced by fasting or overfeeding in unrestrained rats
H. Shibata and L. J. Bukowiecki 465

In vivo contractile properties of the fatigued diaphragm
J. Road, R. Vahi, P. del Rio, and A. Grassino 471

Effect of platelet-activating factor on airway vascular permeability: possible mechanisms
T. W. Evans, K. F. Chung, D. F. Rogers, and P. J. Barnes 479

Upstream pressure for systemic to pulmonary flow from bronchial circulation in dogs
P. G. Agostoni, M. E. Deffebach, W. Kirk, S. Lakshminarayan, and J. Butler 485

Effect of estradiol on tissue glycogen metabolism in exercised oophorectomized rats
Z. V. Kendrick, C. A. Steffen, W. L. Rumsey, and D. I. Goldberg 492

Hypocapnia-induced constriction of the canine peripheral airways exhibits tachyphylaxis
J. Kolbe, S. R. Kleeberger, H. A. Menkes, and E. W. Spannhake 497

Head-down tilt and restraint on renal function and glomerular dynamics in the rat
B. J. Tucker, C. A. Mundy, M. G. Ziegler, C. Baylis, and R. C. Blantz 505

Interaction of contractile responses in canine tracheal smooth muscle
S. J. Gunst, J. Q. Stropp, and N. A. Flavahan 514

Operation Everest II: elevated high-altitude pulmonary resistance unresponsive to oxygen
B. M. Groves, J. T. Reeves, J. R. Sutton, P. D. Wagner, A. Cymerman, M. K. Malconian, P. B. Rock, P. M. Young, and C. S. Houston 521

Operation Everest II: preservation of cardiac function at extreme altitude
J. T. Reeves, B. M. Groves, J. R. Sutton, P. D. Wagner, A. Cymerman, M. K. Malconian, P. B. Rock, P. M. Young, and C. S. Houston 531

No gravity-independent gradient of blood flow distribution in dog lung
G. Nicolaysen, J. Shepard, M. Onizuka, T. Tanita, R. S. Hattner, and N. C. Staub 540

Influence of halothane on control of breathing in intact and decerebrated cats
H. Gautier, M. Bonora, and D. Zaoui 546

Effects of autonomic blockade on cardiac function at rest and during upright exercise in humans
H. Kelbæk, O. J. Hartling, T. Gjørup, J. Marving, N. J. Christensen, and J. Godtfredsen 554

Structural and functional responses to prolonged hindlimb suspension in rat muscle
D. Desplanches, M. H. Mayet, B. Sempore, and R. Flandrois 558

Contribution of cardiogenic oscillations to gas exchange in constant-flow ventilation
I. J. Cybulsky, J. G. Abel, A. S. Menon, T. A. Salerno, S. V. Lichtenstein, and A. S. Slutsky 564

Human skeletal muscle function and metabolism during intense exercise at high O_2 and N_2 pressures
O. Eiken, C. M. Hesser, F. Lind, A. Thorsson, and P. A. Tesch 571

Physiological responses of aged men to head-up tilt during heat exposure
K. Shiraki, S. Sagawa, M. K. Yousef, N. Konda, and K. Miki 576

CONTENTS OF VOLUME 63

Comparative effects of leukotrienes on porcine pulmonary circulation in vitro and in vivo
H. Ohtaka, J. Y. Tsang, A. Foster, J. C. Hogg, and R. R. Schellenberg 582

Metabolic and hormonal responses in theophylline-increased cold resistance in males
L. C. H. Wang, S. F. P. Man, and A. N. Belcastro 589

Species variation in lung antioxidant enzyme activities
C. L. Bryan and S. G. Jenkinson 597

Neuromuscular and mechanical responses to inspiratory resistive loading during sleep
D. W. Hudgel, M. Mulholland, and C. Hendricks 603

Maturation of spontaneous fetal diaphragmatic activity and fetal response to hypercapnia and hypoxemia
S. Ioffe, A. H. Jansen, and V. Chernick 609

Plasma fibronectin therapy and lung protein clearance with bacteremia after surgery
L. F. Cohler, T. M. Saba, E. Lewis, P. A. Vincent, and W. E. Charash 623

Continuity of arterial and venous extra-alveolar interstitium in excised rabbit lungs
W. J. E. Lamm and R. K. Albert 634

Hypoxia and monosynaptic reflexes in humans
J. C. Willer, G. Miserocchi, and H. Gautier 639

Effect of substance P on mucus secretion of isolated submucosal gland from feline trachea
S. Shimura, T. Sasaki, H. Okayama, H. Sasaki, and T. Takishima 646

Plasma free and sulfoconjugated catecholamine responses to varying exercise intensity
M. S. Sothmann, A. B. Gustafson, and M. Chandler 654

Cold-induced bronchoconstriction: role of cutaneous reflexes vs. direct airway effects
J. L. Berk, K. A. Lenner, and E. R. McFadden, Jr. 659

Dive response of children in relation to cold-water near-drowning
C. A. Ramey, D. N. Ramey, and J. S. Hayward 665

Hormonal and vascular fluid responses to maximal exercise in trained and untrained males
B. J. Freund, J. R. Claybaugh, M. S. Dice, and G. M. Hashiro 669

Circulating vasoactive substances and hemodynamic adjustments at birth in lambs
D. Davidson 676

Time-dependent effect of hypoxia on carotid body chemosensory function
P. Barnard, S. Andronikou, M. Pokorski, N. Smatresk, A. Mokashi, and S. Lahiri 685

Surfactant-associated protein inhibits phospholipid secretion from type II cells
W. R. Rice, G. F. Ross, F. M. Singleton, S. Dingle, and J. A. Whitsett 692

Naloxone reduces ventilatory depression of brain hypoxia
J. A. Neubauer, M. A. Posner, T. V. Santiago, and N. H. Edelman 699

Effect of airway wall flexibility on clearance by simulated cough
V. Soland, G. Brock, and M. King 707

Patterns of EMG activity of rat plantaris muscle during swimming and other locomotor activities
B. J. Jasmin and P. F. Gardiner 713

Hysteresis in response to descending and ascending lower-body negative pressure
C. M. Tomaselli, M. A. B. Frey, R. A. Kenney, and G. W. Hoffler 719

O_2 delivery to contracting muscle during hypoxic or CO hypoxia
C. E. King, S. L. Dodd, and S. M. Cain 726

Cardiorespiratory responses to chemical activation of right ventricular receptors
T. G. Waldrop and D. C. Mullins 733

Factors producing elevated core temperature in spontaneously hypertensive rats
M. G. Collins, W. S. Hunter, and C. M. Blatteis 740

Inhibitory effect of almitrine on dopaminergic activity of rat carotid body
J. M. Pequignot, E. Tavitian, C. Boudet, Y. Evrard, J. Claustre, and L. Peyrin 746

Enhanced fibrin formation in high-altitude pulmonary edema
P. Bärtsch, U. Waber, A. Haeberli, M. Maggiorini, S. Kriemler, O. Oelz, and W. P. Straub 752

Altitude acclimatization attenuates plasma ammonia accumulation during submaximal exercise
P. M. Young, P. B. Rock, C. S. Fulco, L. A. Trad, V. A. Forte, Jr., and A. Cymerman 758

Electrolyte composition changes of chronically K-depleted rats after K loading
M. Sadre, H.-P. Sheng, M. Fiorotto, and B. L. Nichols 765

Pulmonary arterial transit times
C. A. Dawson, R. L. Capen, L. P. Latham, W. L. Hanson, S. E. Hofmeister, T. A. Bronikowski, D. A. Rickaby, and W. W. Wagner, Jr. 770

Alveolar vessel behavior in the zone 2 lung inferred from indicator-dilution data
D. A. Rickaby, C. A. Dawson, J. H. Linehan, and T. A. Bronikowski 778

Three-dimensional reconstruction of the rat acinus
R. R. Mercer and J. D. Crapo 785

Decline in peripheral chemoreceptor excitatory stimulation during acute hypoxia in the lamb
J. L. Carroll and M. A. Bureau 795

Changes in left ventricular geometry during spontaneous breathing
S. S. Cassidy, W. B. Wead, G. B. Seibert, and M. Ramanathan 803

In vivo functional antagonism between isoproterenol and bronchoconstrictants in the dog
J. W. Jenne, T. K. Shaughnessy, W. S. Druz, C. J. Manfredi, and R. E. Vestal 812

Percent carboxyhemoglobin in resting humans exposed repeatedly to 1,500 and 7,500 ppm CO
P. Tikuisis, F. Buick, and D. M. Kane 820

β-Receptors and surface active material flux in fetal lamb lung: female advantage
D. Warburton, L. Parton, S. Buckley, L. Cosico, and T. Saluna 828

Effects of blood pressure on force production in cat and human muscle
S. F. Hobbs and D. I. McCloskey 834

Antioxidants protect cultured bovine lung endothelial cells from injury by endotoxin
K. L. Brigham, B. Meyrick, L. C. Berry, Jr., and J. E. Repine 840

Does rib cage-abdominal paradox signify respiratory muscle fatigue?
M. J. Tobin, W. Perez, S. M. Guenther, R. F. Lodato, and D. R. Dantzker 851

Information content of multiple inert gas elimination measurements
K. S. Kapitan and P. D. Wagner 861

SPECIAL COMMUNICATIONS

Detailed characterization of a tank used for head-out water immersion in humans
M. Epstein, P. Norsk, R. Loutzenhiser, and P. Sonke 869

Estimating left ventricular offset volume using dual-frequency conductance catheters
T. J. Gawne, K. S. Gray, and R. E. Goldstein 872

Operation Everest II: man at extreme altitude
C. S. Houston, J. R. Sutton, A. Cymerman, and J. T. Reeves 877

Regional trapping of microspheres in the lung compares well with regional blood flow
K. C. Beck 883

Constant-flow perfusion of the hindlimb vascular bed in conscious dogs
P. J. Metting, T. F. Ronau, J. R. Strader, and S. L. Britton 890

ABSTRACTS FROM CURRENT LITERATURE

D. G. Baker and H. Don 2490

Effect of aerobic training on the plasma ACTH response to exercise
M. J. Buono, J. E. Yeager, and A. A. Sucec 2499

Running endurance in 27-h-fasted humans
D. C. Nieman, K. A. Carlson, M. E. Brandstater, R. T. Naegele, and J. W. Blankenship 2502

Heterogeneity in the effects of epithelium removal in the canine bronchial tree
K. Stuart-Smith and P. M. Vanhoutte 2510

Hypoxia enhances unilateral lung injury by increasing blood flow to the injured lung
K. Takeda, M. J. Knapp, W. G. Wolfe, and J. D. Crapo 2516

Effects of intracellular pH on hypoxic vasoconstriction in rat lungs
B. Raffestin and I. F. McMurtry 2524

Selenium deficiency, endurance exercise capacity, and antioxidant status in rats
J. K. Lang, K. Gohil, L. Packer, and R. F. Burk 2532

Effects of hyperoxia on vasoconstriction and $\dot{V}_A/\dot{Q}$ matching in the neonatal lung
W. E. Truog, G. J. Redding, and T. A. Standaert 2536

Lung mechanics and neuromuscular output during CO_2 inhalation after airway anesthesia
T. Y. Sullivan, E. L. DeWeese, P.-L. Yu, and G. R. Aronoff 2542

SPECIAL COMMUNICATIONS

Induction of voluntary prolonged running by rats
J. C. Russell, W. F. Epling, D. Pierce, R. M. Amy, and D. P. Boer 2549

Improved fabrication of double-barreled recessed cathode O_2 microelectrodes
R. A. Linsenmeier and C. M. Yancey 2554

RAPID COMMUNICATIONS

Effects of lower body negative pressure on sympathetic discharge to leg muscles in humans
R. G. Victor and W. N. Leimbach, Jr. 2558
